

2022-25 AAC Strategic Plan

Goal	2022-23 School Year Plans	2022-23 Review of Progress/Evidence
<p>1-Enhance student performance by increasing cross-curricular learning opportunities, improving educational resources and beginning an AAC Online program.</p>	<ol style="list-style-type: none"> 1. Create a secondary Online program that offers live classes with certified teachers using our regular American/National curriculum. 2. Horizontally align the curriculum to initiate cross-curricular instructional opportunities for teachers among the various subject areas. 3. Form a committee of teachers who explore using the school's current resources optimally and which new resources would best enhance learning. 	<ol style="list-style-type: none"> 1-The Online program was not a success. We only had a few students sign up, and their attendance/performance was very weak. The program was disbanded during Semester 1. 2. The vertical alignment of our Scope and Sequence documents has been completed, and is published on our website. The horizontal alignment has begun, but was hit by setbacks, most notably our curriculum coordinator leaving due to a family emergency. A replacement was named, but only began in the spring due to her maternity leave. 3. Our new curriculum coordinator has begun work on the resources committee, and we hope that it will flourish in the 2023-24 SY.

Adjust curriculum where necessary, depending on how well it actually works in the classrooms. 2. Led by the Curriculum Coordinator, the committee of teachers assigned to curriculum should formulate an annual rotation of resource allocation and use. 3. Create time in the secondary schedule for grade level/subject area teachers to meet during the week, to plan their cross curricular instructional plans. This already exists in the elementary schedule.
